ARTICLE III: REIMBURSEMENT METHODOLOGIES

Section 3.1 - Professional Fee Schedule: Participating Provider shall be reimbursed for Covered Services rendered to Commercial Members in accordance with the allowable fee schedule rates set forth in Exhibit A attached hereto.

Section 4.2 - Inpatient Facility DRG Adjudication: Inpatient acute care hospital admissions shall be reimbursed under the CMS MS-DRG prospective payment methodology utilizing a hospital-specific base rate of \$10,500.00 multiplied by the CMS Relative Weight. Cases where total billed charges exceed the high-cost outlier threshold of \$45,000.00 shall qualify for an outlier payment calculated at an eighty percent (80%) marginal rate for charges exceeding the threshold.

Section 5.1 - Multiple Procedure Payment Reduction (MPPR): When multiple qualifying surgical procedures are performed by the same physician during the same operative encounter, the primary procedure with the highest contracted allowable shall be reimbursed at 100%, and the secondary and subsequent procedures shall be reimbursed at 50% of the allowable schedule.

Section 6.4 - Diagnostic Splitting: Diagnostic radiological and cardiovascular procedures billed with Modifier 26 (Professional Component) or Modifier TC (Technical Component) shall be reimbursed strictly in accordance with the component schedules defined in Exhibit A.

Section 7.3 - Timely Filing Limits: Claims must be submitted within ninety (90) calendar days from the date of service. Untimely claims submitted after 90 days are subject to contractual denial under CARC CO-29.

Section 8.2 - Bundled & Incidental Codes: Incidental services including CPT 99000 (specimen handling) are deemed bundled into primary evaluation or venipuncture services and are non-reimbursable (CARC CO-97).
