

CENTERS FOR MEDICARE & MEDICAID SERVICES (CMS)

National Coverage Determination (NCD) 220.4: Diagnostic Ultrasound in Cardiac Procedures

Effective Date: January 1, 2026 | **Tracking Code:** CMS-NCD-220.4

Target Procedure Codes: 93000, 93000-26, 93000-TC (Electrocardiogram and Cardiac Ultrasound)

Coverage Criteria & Medical Necessity (Paragraph 3.1(a)):

Diagnostic cardiac evaluation is covered when the primary clinical indication demonstrates medical necessity, defined as documented atherosclerotic heart disease (ICD-10 I25.10), heart failure (I50.9), essential hypertension (I10), or acute chest pain (R07.9). Services billed without a qualifying medical necessity diagnosis are denied under CARC CO-16.
