

COMMERCIAL REIMBURSEMENT POLICY: PAYER-RP-042

Multiple Procedure Payment Reduction (MPPR) for Surgical Procedures

Paragraph 4.1 - Methodology and Application:

When multiple surgical procedures are performed during the same operative session by the same provider, the highest-valued procedure is reimbursed at 100% of the contracted fee schedule. The secondary and all subsequent qualifying surgical procedures (e.g. CPT 29882 billed with 29881) are reduced by fifty percent (50%). Modifier 51 or MPPR edits indicate the secondary procedure discount.
